

## WOMEN WILL PREPARE OLD-TIME LU'AU FOR CARNIVAL WEEK FEAST

The celebration of Washington's birthday will have this year a decidedly local tinge. Old Hawaii will revive. The prophecy of the ancient priest Kapihe is going to be fulfilled: Kamehameha having seen his ancestors in the Aina huna a Kane (in the Hidden Land of Kane), comes back to live and resume his government. There will be joy in the land when the conqueror once more lands at Wai-kiki at the head of his warriors. But this joy would be lifeless, if it did not manifest itself in that crowning feature of a truly Hawaiian feast—the old-time lu'au.

This important feature of the celebration will be furnished by the committee which is in charge of collecting the funds for Father Stephen's projected new Sacred Heart church. The lu'au will be given on the empty lot at the corner of Beretania and Miller streets, next to Queen Liliuokalani's residence. It will begin at 11 o'clock, after the military parade, and continue throughout the afternoon and very likely late in the evening.

The cooking will be done at different hours of the day in order to insure to those who return in the evening as good, warm a meal as at noon. The ladies in charge of the feast are Mrs. McVeigh, Mrs. Wong Leong, Mrs. Holt, Mrs. Aiau, Mrs. Luke, Mrs. Le-gros, Mrs. Guerreiro and Mrs. Johnson, all experts in Hawaiian culinary art. Each of them will be assisted

by a bevy of young ladies wearing the colors of their respective table. No visiting stranger ought to miss this unique opportunity of partaking of a typical Hawaiian feast. To the kamaina the enumeration of some of the many delicacies which will be dished up, is sufficient enticement. Chicken prepared with lailau (taro-leaf), ophi, opaea, aku, kololu, haopla, koelapalao, mullets cooked in ti-leaves, and, last but not least, puua yarm from the imu, are some of the good things which on account of the barbarous names, do not say much to the tourist, but which tickle the palates of those who know, by the reminiscences of good cheer they evoke.

The mullets, by the way, will be the more appreciated as they come in the taboored season; it is through the kindness of Messrs. Chas. Chillingworth and J. F. Colburn that we are able to serve this delicious fish to our guests.

There will be also on the grounds a booth for refreshments, and one for coffee and sandwiches, in charge of Mrs. Short, Mrs. Lindeman, Mrs. Medeiros, Mrs. Wirtz, Mrs. Ziegler, Mrs. Gall, Miss Cowan, Mrs. Hudson, Mrs. Quinlan and Miss Dowling.

This is the lu'au which originally was to be given at Punahou on the site of the projected church, as it is printed on the tickets. The change to the present place, corner of Beretania and Miller, was made in order

to make the affair more convenient for the people, who now will be able to take their lunch between the two parades, as the military parade will be through about 11 o'clock a. m. and the floral parade begins only at 1:30 o'clock in the afternoon.

Tickets for the lu'au are for sale at the rooms of the promotion committee (Young Hotel), and at the Territorial Messengers' office. They will be also sold at the entrance. The price is \$1.00 a ticket.

The parades will pass by the place of the lu'au.

## BIG RACING CAR COMES TO GRIEF ON LEILEHUA RD.

Gallard Smart's powerful new Lozier racing car, recently purchased on the coast and brought down here on the last Sierra to participate in the racing meet this week, came to grief Saturday afternoon on the Leilehua highway, turning turtle over an embankment while being driven at a high rate of speed, badly injuring the two mechanics who were handling it, and ending its career looking very much a wreck.

Comp Schoening and Isaac Allen, the occupants at the time, now lie at the Queen's hospital, the one suffering from a badly wrenched leg and the other from an injury to the chest. Three of the car's wheels were ripped off, the steering gear broken and the chassis partly carried away, but the engine and tonneau remain in apparently fairly good condition.

The auto, a \$5300 racing beauty, registered 80 horse-power, was brought down by Smart's chauffeur, Isaac Allen, and was being tested on the belt road near Leilehua. At a speed of about seventy miles an hour he struck a sharp curve in the road that the machine refused to follow and it dashed straight ahead into the fence, ripping out about fifty feet of the barricade before turning turtle and throwing the occupants out. It turned clear over, came upright and when found later by the repair outfit that was sent from von Hamm-Young's establishment, was facing back toward Leilehua. The throttle, gas and air were wide open.

The men, while seriously injured, are not in dangerous condition. Smart and his wife, formerly Miss Thelma Parker, the Hawaiian princess and wealthy owner of the great Parker ranch on Hawaii, are expected to return in a few days from the Coast, where they have been residing since their marriage last summer.

## PROPOSES TO ANNA SHAW IN PUBLIC

DANIELSON, Conn., Feb. 1.—Six hundred persons, most of whom were suffragists, who were listening to an address by Dr. Anna Howard Shaw, president of the National Suffrage Association, in the Danielson theater last night, were thrown into confusion when John Frisbie, a wealthy farmer of Mechanicville, interrupted the speaker and proposed marriage to her. "Just a minute, Miss Shaw," shouted Frisbie. "I have been a widower for eighteen years. Will you marry me and make me happy. I have plenty for us both."

For several minutes Dr. Shaw stood speechless. Then she cried out dramatically: "I don't want a wedding ring! All I want is the vote!" "I hope you never get the vote if that's the way you feel about it," was Frisbie's parting shot as he left the hall.

## HILO BUTTERMAKERS URGE CO-OPERATION

HILO, February 14.—The work done by the various stations during the past year and a resume of the needs of the small farmers including the appropriations which the legislature will be asked to furnish to meet these needs, were outlined in reports read at the annual meeting of the Hawaii Buttermakers' Association which was held last Thursday at Hilo.

In the report which was read by G. D. Suppe, he said that the cooperation of the merchants had done much for the buttermakers, and that if this cooperation could be extended to the other branches of farming, those would also flourish. Director Clowes of the Glenwood station said that the trouble arising from the farmers who complained that the farm products were not regular enough could be done away with by the establishment of some sort of a general agency which would regulate the supply. The subject of the territorial market division was brought up, and there was some general talk to the effect that the market was not meeting with any glowing success. It was stated by Doctor Wilcox that he had been told by a number of the members of the legislature that they proposed to have the market turned over to the experiment station in order that it might form a part thereof.

According to a remark made by Mr. Clowes, the expenses of Starrett's office amounted to \$5000 per year and that the bureau was selling only about \$500 worth of produce a month. He further said that the Hilo substitution did almost as big a business with butter alone. Taking up a consideration of what could be done along the small farm lines, Dr. Wilcox referred to the planting of an acre of sweet corn by the Experiment Station in Honolulu which yielded \$250, and that the demand for more was strong.

## PASTORAL DRAMA IS THE BRISSAC OFFERING

"New England Folk," a pastoral drama, is the offering of Virginia Brissac and the World's Fair Stock Company at the Bijou theater tonight. As the name would imply it is a rural play of New England life and calls for some strong and emotional acting while there's a vein of rich comedy running through the entire play.

While the play is now to Honolulu, having never been seen here, still there are many Honoluluans who have seen it played on the mainland and say it's the best pastoral drama of the day. The play had a long run in New York and London and according to Director Wray the production tonight will be as stupendous as conditions at the Bijou will permit.

The World's Fair Stock Company is at the beginning of the end of its engagement, having only a few more plays to give before their departure. Business has been good with the stock company and they have certainly given the people the worth of their money. It will be with genuine regret that the theatergoers will see them go.

## HIGH-CLASS PROGRAM FOR THE LIBERTY

The Ye Liberty's program tonight will consist of de luxe pictures and high class vaudeville. Barnes & West will give a complete change in their act, Barnes taking the part of a little boy. This is said to be his best act. Miss West, the girl with the educated feet, will be seen in an entire new dance.

Tomorrow night the Russian dancers will open a limited engagement at this theater. This will be one of the biggest attractions at the Ye Liberty in a long while. The dancers, eight in number, are said to be the best in America today.

## WHAT'S IN A NAME!

A. and H. McInerney, brothers, and two of the most prominent retail merchants in Honolulu, arrived on the Mongolia yesterday and went to the Stewart. Other Honolulu people of prominence who are staying at the Stewart are Mr. and Mrs. Archie Young of the well-known hotel family of the Islands and A. W. Campbell, chairman of the board of public works of Honolulu.—San Francisco Examiner.

I read it in the Star-Bulletin. It must be so.

## G. P. COOKE TO WAR ON DEERS OF MOLOKAI

With Representative George P. Cooke of the third district leading the forces, another war is soon to be begun on the deer which infest the highlands of Molokai.

The measure of annihilation will be referred for consideration to the agriculture, forestry, promotion and immigration committees in the coming session of the house of representatives, and as Speaker Holstein has Mr. Cooke slated for the chairman of these committees, the representative will be in a commanding position to set forth the need of his campaign of destruction. Fearing the extermination of the late King Kilauea's pets, a law was created four years ago through the efforts of Representative Coney, of Kauai, which provided a close season for the little four-footers. At that time, Mr. Cooke was not in the legislature, but as soon as the session law went into effect, he resolved to open the door so that the deer might be killed any time from January 1st to December 31st.

After being elected to the house two years ago, Mr. Cooke's first move in the way of legislation was to introduce a bill to repeal the deer protection law. The bill was passed and submitted to the senate, where the older and more wise' solons killed it and saved the day for the deer. When he learned of the fate of his measure, Mr. Cooke stated that at some time he would again bring the matter up, and it is evident that he has kept his word.

NOVEMBER 1904  
FEBRUARY 1911

In 1904 Andrew C. Larsen of Sorenson & Larsen of Salt Lake City, Utah, was slowly dying of Bright's Disease. He was water-logged—having been tapped twice and the family physician told his partner that "it is as impossible for him to recover as it is to empty the ocean." His partner was advised to have him fix up his affairs. The treatment was charged to Fulton's Renal Compound. A few months later, March 31, 1905, patient was back to business, to the surprise of his physicians and everyone else.

As to permanence—we have been writing a few of these cases of several years ago on this point and we have a line from Larsen dated February 9, 1911, from which we quote: "Yours of February 6th to hand. I am in perfect health and haven't had a sick day for many years. The compound cured me and did it right."

How can physicians and hospitals look over these things and permit patients with kidney disease to die on Digitalis, Nitro Glycerine, Basham's Mixture, etc., under which failure is admitted by the books. Physicians who add Fulton's Renal Compound to the heart, tonic and eliminative treatment they are already giving are getting results in many cases in which failure has been the rule.

## CHORUS GIRLS' FILL POPULAR FOR CONTEST

Announcement of a chorus girls' contest never fails to draw a crowd and the Popular theatre was filled to the doors at the last contest. Miss Myrtle Jasperson won first prize again with "To the End of the World With You," which she sang even better than her previous selections. Miss Gene Mackenzie came in an easy winner of second prize with "Sleepyhead," and Misses Mollie and Elvira Arville secured the third prize with an artistic sailor's hornpipe. There is enough good material in the Teal Company to put on a very good vaudeville performance and a minstrel first part with a short sketch following would be a pleasing novelty.

## BORN.

COBB-ADAMS—At Kaneohe, Territory of Hawaii, on Feb. 8, 1913, to Mr. and Mrs. Henry Cobb-Adams, a son (Recliver).

## Clean Milk from Healthy Cows

The cows that furnish our milk are regularly inspected by the Territorial Veterinarian and not allowed, to enter in our producing dairies unless in perfect physical condition. If you could see one of our milch herds at pasture: if you could witness the care observed at milking time to preserve perfect cleanliness, you would realize that the milk we deliver is clean milk from healthy cows.
